NOL-TEC two-way heavy-duty 22.5° line switches provide trouble-free conveying of dry materials in pneumatic conveying systems.

STANDARD FEATURES:
- Heavy-duty steel construction
- One-piece, abrasion-resistant urethane tube with integral seal
- Smooth, uniform internal bore to minimize cross-contamination
- One-positioning air cylinder to select direction of flow
- Dual-sealing air cylinders to provide positive dust-tight operation
- Conveying pressure up to 90 PSIG
- Suitable for converging or diverging applications
- Suitable for outdoor use
- Limit switches to indicate position and sealing

SPECIFICATIONS:
- Compressed air: Clean and dry at 80 PSIG minimum - 120 PSIG maximum
- Electrical: 24VDC
- Temperature range: 200° F maximum

OPTIONAL FEATURES:
- Stainless steel construction
- Seals to close off unused conveying line
- Flanged or grooved pipe connections
- Stainless steel product contact surfaces
- Weather protection covers
- Sanitary design (FDA tube)
- Electrical: 110-120V; 50-60Hz
- Contact Nol-Tec with any special requirements
