

# FLUIDIZING BIN BOTTOM

*The Nol-Tec fluidizing bin bottom promotes the free flow of powdered or granular materials in storage vessels.*

## STANDARD FEATURES:

- Three air injection valve assemblies controlled by one solenoid valve
- Ceramic valve seat directs air into material at various angles
- Abrasion-resistant urethane valve seal
- Wear parts replaceable from outside vessel
- **Air controls:** manifold, regulator, hoses, and solenoid
- Cone angle approx. 70°

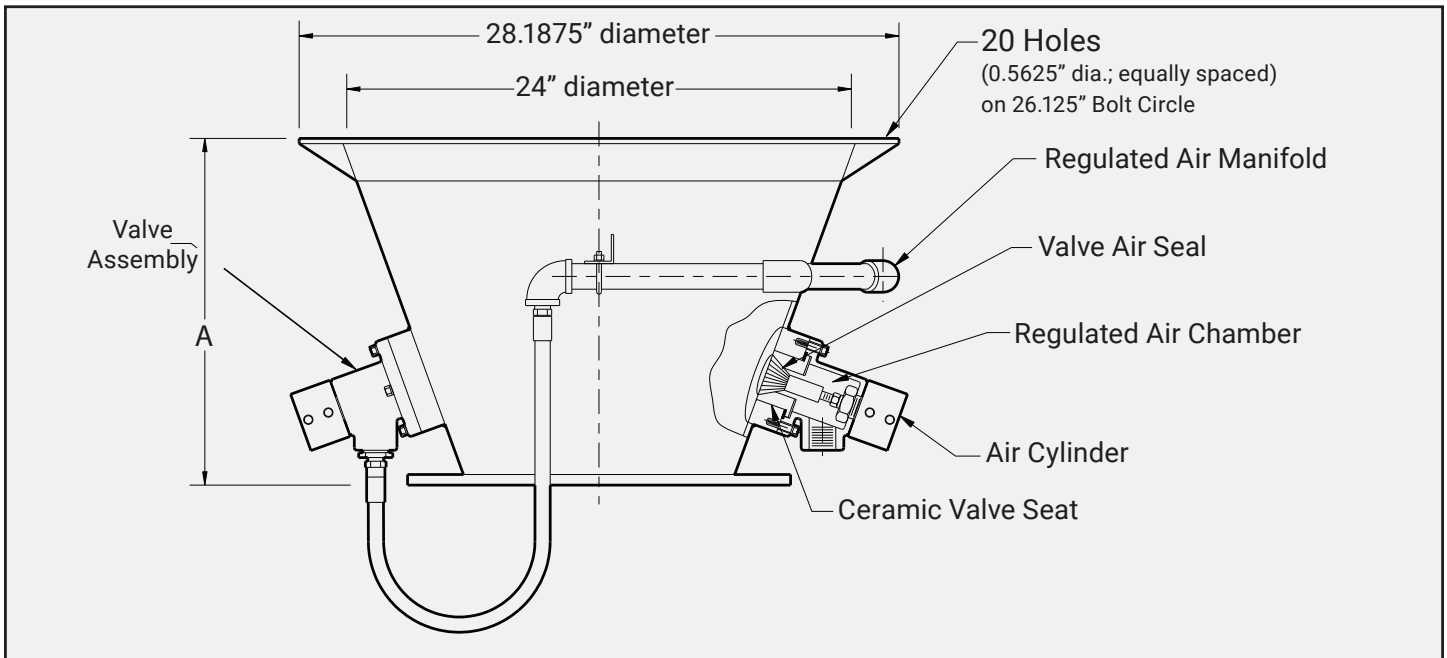

## SPECIFICATIONS:

- **Weight:** 115 lbs
- **Compressed air:** Clean and dry at 80 PSIG minimum
- **Temperature:** 200° F
- **Electrical:** 24 VDC

## OPTIONAL FEATURES:

- Stainless steel construction
- Interior coatings and finishes
- Special mounting flanges
- Individual solenoid valve for aerator sequencing
- Sanitary design
- Explosion-proof design
- High-temperature design
- **Electrical:** 110-120V; 50-60Hz
