

WEIGHING & BATCHING

**Bulk Material
Handling**

INTRODUCTION

We understand that reliable automation, accuracy, and speed are important factors to consider when discussing weighing, metering, and batching options. Whether you are dealing with thousands of pounds of materials or hundredths of a pound - we can help.

OUR SOLUTIONS

Nol-Tec designs and manufactures weighing and batching systems customized to meet our client's needs. Our systems are built utilizing proven scale and batching automation technology equipped with standard and proprietary features to maximize efficiency and productivity. We offer several concepts to meet your needs including gain-in-weight, loss-in-weight, liquid metering, batching, and continuous weighing.

**ACCURATE, VERIFIABLE, AND MEASURABLE
SOLUTIONS TO IMPROVE SYSTEM EFFICIENCY**

TRUSTED TO DELIVER®

Nol-Tec Systems, Inc. | 425 Apollo Drive | Lino Lakes, MN 55014

KEY BENEFITS

Experienced Engineers

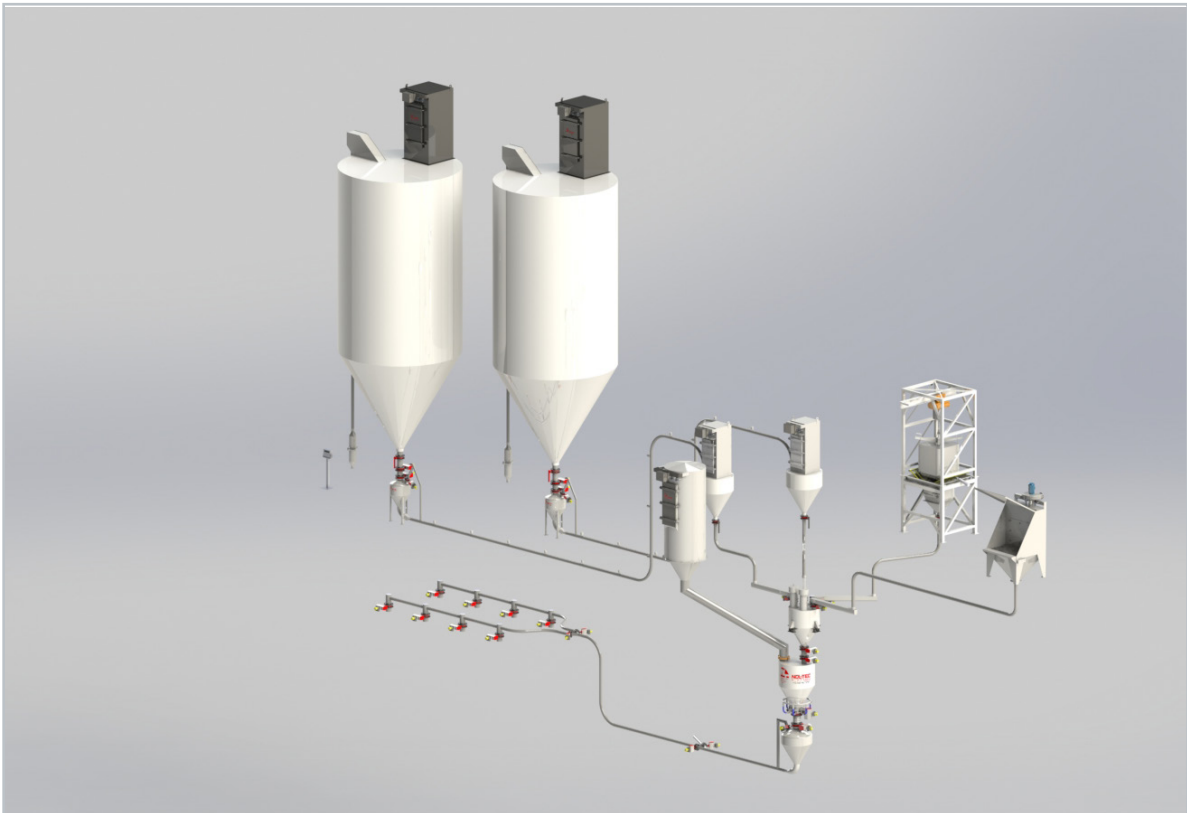

- Skilled in the conveyance of a multitude of materials
- Versed in a variety of commercially sold controls, PLCs, and scales
- Trusted to Deliver™ custom system solutions resulting in long life expectancy and minimal maintenance

Modular Testing Facility

- We have a modular testing facility to replicate your process and prove the concept prior to purchase

Full Service Provider

- Full life cycle provider including onsite services for commissioning, installation supervision training, troubleshooting and audits, along with in-house VPN and phone support

ABOUT NOL-TEC

Nol-Tec is recognized as a global leader in the design and manufacture of pneumatic conveying equipment for processing dry bulk materials. We have experience handling hundreds of different products from a wide range of industries enabling us to deliver reliable and cost-effective bulk material handling solutions.

Our in-house test lab provides clients with the confidence they need to make informed decisions about their new system design, upgrade, or retrofit. For nearly four decades we have partnered with clients to bring state-of-the-art products to the marketplace. We are committed to helping you keep your business moving.
